

Since 2006

PEBSAL[®]

PEB STEEL ALLIANCE LTD

We Stand Strong

PEB Steel Alliance Ltd. (PEBSAL) is the first state of the Art Pre-Engineered Steel Building Manufacturing Company in Bangladesh which was established in 2006. During last 18 years of operation, it has successfully designed, fabricated and large number of steel buildings. It is fully equipped with modern machineries and equipment; the fabrication of steel structures is in line with international design codes. PEBSAL, buildings are designed in compliance with the latest design and building codes (IBC 2006, AISC 2005, AWS 2006, MBMA 2006, AWS 2007, BNBC). With Operations encompassing Design, fabrication & engineering, PEB Steel Alliance Ltd. (PEBSAL), specializes in assembly, service & commitment of pre-engineered steel buildings (PEBs) for factories, warehouses, showrooms, commercial/ trade centers, supermarkets, sports stadiums, exhibition halls, aircraft hangars, etc.

Key milestones we are proud of:

- ❑ Successfully constructed approximately 1200 buildings across diverse sectors.
- ❑ Supplied over 280,000 MT of complete structures, covering an impressive 3.95 million square meters in area.
- ❑ Achieved export earnings amounting to USD 59.8 million.
- ❑ Supplied 10,200 MT for a single project within a year.
- ❑ Erected a coastal area structure with a height of 118 meters (336 feet).
- ❑ Completed a building with a clear span of 60 meters (200 feet).
- ❑ Introduced the Standing Seam Roofing System in 2016, covering over 500,000 square meters.
- ❑ Celebrated 3 million safe hours in a single project with a multinational corporation.
- ❑ Received the Best Performance Award from SAMSUNG C&T for the HSIA 3rd terminal roof installation work.

“Over 18 years of experience, we are dedicated to provide the best solutions to our valued customers in the field of Pre-Engineered Steel Structure.”

Newaz Khan
Founder (2006-2020)

A trailblazer in Steel Building Manufacturing Industry Late Engineer Newaz Khan completed his Higher Secondary School Certificate in the merit list from Faujdarhat Cadet College, a premium institution of Bangladesh. He held a Bachelor Degree in Mechanical Engineering from Lahore, Pakistan and was an MBA from IBA, Dhaka University.

He is credited with the establishment of Dhaka Lamps under the aegis of Singer, establishment of Bandbox, the first Dry

Cleaning chain in Bangladesh, establishment of Multi Products Ltd, a pioneer in Fire Detection and Alarm System that introduced Johnson Controls, Viking, Western Air Ducts, Ansul, Air Group, VHM, etc in Bangladesh. His latest effort was the establishment of the first JV PEB Steel Alliance Ltd in Bangladesh. He was Founder Chairman of PEB Steel Alliance Limited

Jowher Rizvi
Co-Founder & Chairman

Mr. Jowher Rizvi completed his MBA degree in International Finance and Accounting from Indiana University, USA. He also earned an MA in Economics with Honors from Dhaka University.

Mr. Rizvi started his professional career with Bank of Credit and Commerce International (BCCI) in 1977 and at the same time was engaged with Institute of Business Administration (IBA) as a part time (Honorary) Lecturer. From 1991 to 1997, he served Union Bank Zambia Ltd as its founder Managing Director, taking it to the 2nd leading position in Zambia and

had his achievements recognized with the prestigious Banker of the Year award.

He established Alliance Holdings Ltd. (AHL) in 1997. In partnership with Summit Group, entered the Off-Dock business with Ocean Containers Limited. In 2003, the two sponsors jointly established Summit Alliance Port Limited, a public Limited Company which is listed with two major bourses of the country. He is presently President of Steel Building Manufacturers Association (SBMA) and First Vice President of Bangladesh Inland Container Depots Association (BICDA). Other Enterprises of Alliance Holdings Ltd are:

- *Summit Alliance Port Ltd,*Oriental Oil Company Ltd
- *PEB Steel Bangladesh Ltd, *Union Accessories Ltd
- *Ispahani Summit Alliance Terminals Ltd Fountain Garments Ltd
- *Lankan Alliance Finance Limited

In spite of his busy schedule, he still finds time to pursue his favorite passion and teaches on part time (honorary) basis at North South University (NSU), Chittagong Port Authority Training Academy and National Defense College (NDC).

MILESTONE PROJECTS

Youngone Corporation. (Korea)

Bangladesh's first foreign-owned and largest private EPZ, covering 2,492 acres. For the past 15 years, PEBSAL has been the exclusive supplier, delivering over 20,000 metric tons of pre-fabricated steel.

Steel & Cement Industries

One of the largest steel re-rolling mills, with a supply volume of 10,200 metric tons, was successfully delivered within a year. Additionally, PEBSAL has collaborated with leading re-rolling & cement industry players such as AKS, GPH, and BSRM, Akij cement, Crown Cement, Shah Cement, Bengal Cement, Bashundhara Cement, Meghan, Cement, etc

Mauricienne de Textile (CMT)

PEBSAL partnered with Compagnie Mauricienne de Textile (CMT-Mauritius) to support CMT's Bangladesh expansion strategy, contributing to local employment and textile infrastructure over last 15 years.

Sports Complex

PEBSAL delivered custom-engineered steel structures designed for large-span sports facilities at the Bashundhara Sports Complex, contributing to the development of Bangladesh's largest private sports complex and one of South Asia's most advanced multi-sport destinations.

Glass Industry

Over the past 12 years, PEBSAL has played a pivotal role in Nasir Group's expansion across glass, ceramics, and packaging—most notably through its contribution to Nasir Glass Industries Ltd. (NGIL), now recognized as a regional leader in advanced float glass manufacturing. In addition, PEBSAL supported Nasir Group's inaugural venture into the jute sector.

Standing Seam Roof for Solar Panel

PEBSAL supported Youngone Corporation's rooftop solar initiative at KEPZ by supplying standing seam roofing systems—ideal for large-scale solar panel installation. With 42 MWp already installed, the project advances Youngone's commitment to green manufacturing and energy independence.

Network Arc Bridge, Khulna

This is one of the **first Network Arch Bridges** in Bangladesh, showcasing modern bridge engineering. PEBSAL's involvement reinforces its capability in **complex infrastructure projects**, beyond industrial buildings.

Terminal-3 (HSIA Project)

PEBSAL's first collaboration with ADC—led by Samsung C&T, Mitsubishi, and Fujita—marks its entry into aviation infrastructure through the HSIA Terminal-3 expansion, installing **Wing multi-layered metal roofing systems** for the Left Wing (LW) building.

Bashundhara City -2

This project expands PEBSAL's presence in urban commercial infrastructure and strengthens its decade-long partnership with Bashundhara Group through Bashundhara City-2—one of Dhaka's most modern retail complexes.

The Dhaka Tower

This is PEBSAL's significant high-rise commercial tower collaboration with Shanta Holdings. PEBSAL supplying custom-engineered steel structures for key components of the 150-meter skyscraper—Bangladesh's tallest commercial building.

Head Office Building of Padma Oil Company Limited

This project marks PEBSAL's entry into energy-sector institutional infrastructure, featuring long-span framing with inclined columns to support open-plan layouts and modern architectural design.

SDS International Ltd

Another major expansion by a foreign garments sector conglomerate, this fast-track project spans 800,000 sft with a multi-gable truss framing system. PEBSAL received a Safe Hours Certification from SDS International Ltd, recognizing its commitment to workplace safety and incident-free execution.

515 MW Dual Fuel Power Plant (EPC: SEMCORP/SEMCO-III)

Bangladesh's first public-private partnership (PPP) power plant with foreign investment marked a milestone in energy infrastructure. PEBSAL contributed to this landmark project and also supported the expansion of other major power plants, including Summit.

Beverage Industries

PEBSAL, as a trusted industrial partner, has enabled multinational beverage operations to scale efficiently in Bangladesh. Its collaborations with leading brands—including Transcom, Virgin Cola, and Coca-Cola (IBPL)—reflect its engineering excellence in hygienic, high-throughput facilities. PEBSAL was also awarded for achieving 3 million safe man-hours, marking a major industry milestone in workplace safety and disciplined execution.

Amusement Park

Another strategic footprint in urban commercial and lifestyle infrastructure, this project supports the development of a modern recreational and dining destination in Dhaka. It showcases PEBSAL's ability to deliver aesthetic, functional, and safe steel structures for high-profile public venues.

Pharmaceuticals Industries

PEBSAL has played a significant role in the expansion of Bangladesh's pharmaceuticals and biotechnology industry, partnering with leading companies such as Healthcare Pharmaceuticals Ltd (HPL), Square Pharmaceuticals, General Pharma, Nipro JMI, Renata, ACI, and others. Through precision-engineered steel structures and fast-track delivery, PEBSAL has supported the development of advanced manufacturing facilities aligned with global regulatory standards.
